

ICCPA International Cleft Webinars

6 webinars from leading cleft surgeons, sharing lessons they have learnt from their career with an interactive panel discussion.

ICCPA WEBINAR

**"The things I wish I'd known
about..."**

Speech surgery for VPI

Saturday, 27 November 2021 at

12:00 GMT

2 CME Points

Speakers: Mukunda Reddy & Oksana Jackson

Chairs: Per Hall & Richard Kirschner

This Webinar is aimed at the surgical management of patients with Velopharyngeal Insufficiency (VPI) after primary palate repair surgery. We have 2 international speakers who have developed their own preferences as to how to approach this problem with procedures on the soft palate (velum) or, where required pharyngeal procedures mainly based on the posterior wall pharyngeal flap. The intention is to have plenty of time for discussion to tease out the nuances of each of the surgeons approaches and understand their decision making.

This webinar is NOT covering the Multidisciplinary Team approach to making the diagnosis of Velopharyngeal Insufficiency nor the management of fistulae both of which will be subjects for future webinars.

This webinar will last approximately 2 hours and has been accredited by the British Association of Plastic, Reconstructive and Aesthetic Surgeons (BAPRAS) for a maximum of 2 CME points (live attendance or on-demand watching within 48h).
